

Features

- ★ Recirculating Protein Skimmer Design
- ★ Removable, Dual-body Construction
- ★ Quiet, Energy Efficient Operation
- ★ Adjustable Collection Cup
- ★ Hang-on-the-back Design
- ★ Degassing Water Return
- ★ Easy Installation

Includes

- Feed Pump
- Protein Skimmer Pump
- Dual-body Skimmer
- Waste Collection Cup

INDIVIDUALLY HANDCRAFTED IN THE USA

CPR AQUATIC, INC

www.cprusa.com

CPR Aquatic's AeroForce 2™ is an innovative hang-on-the-back protein skimmer designed to filter your saltwater aquarium of its excess dissolved organic carbons. These organic carbons can contribute to unsafe water conditions for your fish and coral if left untreated.

The AeroForce 2™ utilizes some of CPR's revolutionary hang-on designs from its BakPak™ series while also adding several features to enhance the AeroForce's overall effectiveness. A few of these features include a recirculating design with a dual pump system, removable inner body and a de-gassing water outlet. The dedicated feed pump allows users to select the appropriate amount of water to feed through the skimmer while the separate air pump produces a consistent amount of air, ensuring maximum waste collection.

The AeroForce 2™ also operates extremely quietly and is energy efficient, consuming a total of only 8.5W. The small internal "footprint" makes the skimmer easy to install in small and narrow spaces, and dramatically reduces the amount of equipment showing in the display. Additionally, the removable inner body makes it simple to perform maintenance on the skimmer body and its pumps.

Assembled

AeroForce 2™ CPR code: AEROF2

Designed for marine aquariums

Includes:

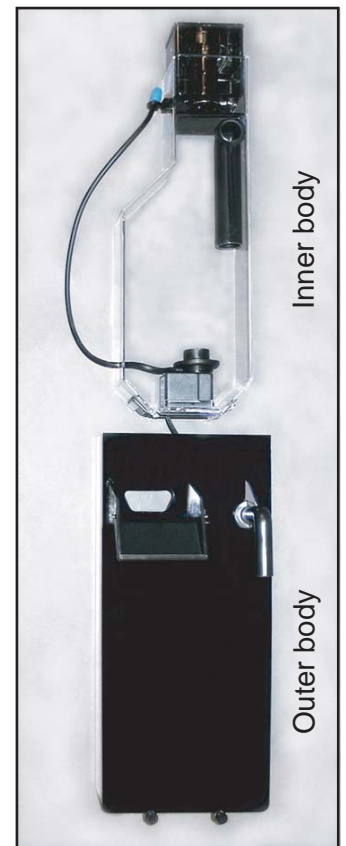

- Dual body protein skimmer
- Feed pump
- Skimmer pump
- Skimmate collection cup

Body Size: 7 1/2" W x 3 1/4" D x 17" H

Installation Requirements:

- Hangs-on rim sizes up to 2"
- Extends 13" below the rim of the tank
- 3.5" needed between aquarium and wall

Rating: aquariums up to 75 gallons
(depending on bio-load)

Removable body for easy maintenance

Inlet & Outlet

Replacement skimmer pumps available
CPR code: AEROF1RP
